

CCT DSA Electoral Working Group

We are excited to open the 2022 CCT DSA endorsement process! After celebrating [major wins](#) last year the Electoral Working Group is preparing to train, recruit, and support candidates for state legislative offices across Connecticut.

Have you ever thought about running? Want to shake up the state government? Have a friend/family member/person in your life that you think would be an excellent representative? We want to meet them and talk about the coolest thing you can do with your time (build socialist power). If you're unsure or just want to get a sense for what this entails please reach out, we're happy to talk to anyone!

Our general outline for the year:

January - Begin accepting applications from prospective candidates

February - Candidate training courses + Candidate forum

Late February-April - Formal endorsement process begins

We will still accept endorsement applications after February but applications received *before* the end of February have **dramatically** higher chances of being supported by the Working Group.

We want this to be a process that not only gets folks running for office, but trains a group of campaign managers, field organizers, and campaign staffers who will take the lead in campaigns for years to come. If any of that sounds interesting, please reach out to electoralworkinggroup@cctdsa.org to get plugged in.

In 2022, our candidates are going to fight for a CT Green New Deal, tenant power, taxing the rich and more! Get involved in this work and let's make a better world possible.
